## Kinsella Held Genuine Stampede

Ambitious Town on the G. T. P. Held Round-Up on Thanksgiving Day with Good Success in Spite of Chilly Weather—Kinsella Rapidly Coming to the Front as Business Centre.

Kinsella sprang into the lime-light on Monday the 13th, Thanksgiving Day, when the citizens, business men, farmers and ranchers of the district joined in putting on a Stampede, the success of which was marred only by the chilly weather that prevailed. It had all the earmarks of a real round-up, without the hold-up features which have been so prevalent at other well-known stampedes held in the west.

In spite of the snow flurries and raw gusts of wind that swept the brown hills and valleys surrounding the plucky Alberta town, auto loads of visitors began to arrive early in the forenoon and the noon trains brought quite a number who helped swell the crowds that trekked their way out to the stampede grounds located half a mile west of town near the high G.T.P. bridge which spans the valley where the tents were pitched and grounds laid out, forming a natural amphitheatre for the drama of ranching life. At the far end of the field in an enclosure were the bucking horses, wild steers and frisky calves. On the western hillside the refreshment tents were pitched, and from one end of the slope to the other automobiles of every make were parked. In the valley below, cowboys and cowgirls, clad in the multi-colored and picturesque garb of the riders of the plains, rode their horses and did the stunts that are a part and parcel of their strenuous life on the big ranches. Some of the riders had won fame at the Saskatoon and Neutral Hills round-ups, and before going to the southwestern States for the winter, joined the riders in and around the Kinsella range in a genuine whoop-er-up stampede.

And it was a genuine round-up, and but for the unusually snappy weather for this time of the year, the attendance was not as large as would have been. However, the officials and performers went on with the show and gave their best while the crowds shivered on the hillside.

Mr. Mann, the genial secretary, was a little superstitious about the thirteenth of the month, and when the roping contest was over and none of the frisky calves were successfully lassoed, he counted the entries and there were thirteen, his faith in the evil omen of the baker's dozen was unshaken. Never hold a stampede on the thirteenth, said Mr. Mann; and we pass this advice on to any burg that has a notion.

All the events were close and exciting and brought out some clever riders. The calves were a hard lot to catch and the riders looked funny chasing the nimble and elusive critters. The steers were really wild and several threw the cowboys, when the surling broke from the strain of the bucking animals and the tossing riders. There were some real bad bucking bronchos too that kept the cowboys guessing, one especially that circled round and round and did a shimmy dance all its own, but the cowboy hung on and got a great hand from the crowd.

The ladies in charge of the refreshments were as busy as the proverbial bee, serving good hot coffee with real cream, buns, sandwiches and cake, at a very nominal price, which was warmly appre-

ciated by the crowd that jostled each other for standing room in the tent.

The lucky riders were as follows: Pony race: 1st B. Cormack; 2nd P. Whitford, 3rd H. Glover. Free for All: 1st C. B. Roe, 2nd B. Cormack, 3rd P. Whitford. Stake Race: 1st P. Kneeshaw, 2nd J. McMurray, 3rd H. Glover. Calf roping: 1st Gro. Cox. Steer Riding, bareback: 1st M. Blanc, 2nd Slim Blatchford. Bucking horse contest: 1st Slim Blatchford, 2nd Tom Bell.

The officials in charge were, President, H. J. Nicholson; Sec'y-treas. W. Mann; chairman races, D. Corbett; Steers, R. H. Philippi; Bucking contest, P. Kneeshaw; Judges, F. Gillespie, B. Travis, R. King; Official announcer, J. F. Murray; Dance committee, W. J. Fleming, J. D. Elliott, E. Powell, C. B. Webb; Tickets, C. A. Thorpe. The events closed with a grand dance in a large new hall recently built by Overbo Bros. The Wainwright five-piece orchestra furnished music which was declared the best heard in the district for a long time.

**Kinsella Forging Ahead.**  
Kinsella, situated 100 east of Edmonton along the G.T.P. railway, has had a remarkable growth the past year, and no doubt has made more progress than any other hamlet in the northwest in the same space of time. Last year it was only a stopping place with one store and a postoffice. Today it has no less than fifteen business places and more ready to come in as soon as buildings can be erected. Several new and very substantial residences have also been built, the streets graded, and improvements made that are worthy of a much larger town.

A directory of the business houses includes:  
P. J. Wangsness, general store  
J. F. Murray, general store  
F. C. Wilkin, garage  
M. James, tinshop  
Mrs. Sidore, hotel  
V. A. Justik, blacksmith  
Overbo Bros. poolroom, barber  
E. C. Williams, implements  
D. Corbett, postmaster  
Chow Hong, restaurant  
M. O'Donnell, meat market  
M. Ainslee, E. C. D.  
John Smith, Swift Canadian  
O. C. Christenson, livery  
U. G. G. Elevator, H. Campbell  
Royal Bank, H. J. Nicholson, manager, W. Mann, teller, C. A. Thorpe, ledger, W. J. Fleming, teller. Two of this staff conduct a sub-branch at Jarrow every week.

### Sunday Services.

Orbindale 11 am.  
Roseberry 3 pm.  
Irma 7.30 pm.  
Rev. McNab of the Canadian Bible society will speak at these services.

### SUNDAY SCHOOL

Irma 11 am.  
Roseberry 2 pm.  
Alma Mater 2.30 pm.  
Prayer meeting service at Irma Thursday evening.  
All are welcome.

C. G. Hookin, Pastor

The Ladies Aid will meet with Mrs. Hookin on Wednesday afternoon Oct 22nd. They will meet to sew for the Bazaar on Tuesday evening at Mrs. A. A. Dickson's.

## LOCAL G.W.V.A. WILL HOLD BALL OCTOBER 31ST

Grand Hallowe'en Ball at Co-op Hall given under the auspices of the Irma branch of the G.W.V.A. on the night of Friday, October 31. Keep this date in mind and bring your best girl or girls. Dancing and cards till 1.30. Dance starts at 8.30. Admission gentlemen, \$1.

### Irma L.O.L. No. 2066.

A special meeting of the lodge will be held on Wednesday, October 22, at 8 p.m. sharp. Brothers are asked to attend and if possible to be on time to meet the provincial organizer.

### Red Cross.

A meeting was held at the home of Mrs. Patterson, Friday, October 3rd, the members decided to disband and send the balance of money on hand to headquarters. The following is a list of money sent to Edmonton from the Irma district:

1915	\$ 75.00
1916	275.30
1917	659.85
1918	1901.20
1919	357.75
	\$ 3269.10

In addition to the money collected a large number of bags of work have been made up by the ladies in the Irma district and forwarded to headquarters. The society wish to thank all those who have helped to make the work of the Irma branch so successful.

### U. F. W. A.

The UFWA will serve tea, coffee, sandwiches and cake, in Hardy & Dickson's garage, Saturday, Oct 25.

## LOCAL NEWS

Mr. D. J. Berridge spent the holiday at Edmonton.

Miss M. Green has resigned her position with Merchants Bank.

Miss M. McFarland spent the holiday at Irma.

Mr. F. Roe has gone to the Edmonton Hospital for medical treatment.

Ladies Aid meets next Wednesday at the Parsonage.

Mr. R. Hunter spent the holiday at Wainwright.

Mr. and Mrs. Fenton have been visiting relatives at Stettler Alberta.

Rev. Mr. McNab of the Canadian Bible society will spend Sunday, October 19th in the Irma district.

Mr. B. Stewart left Wednesday night for Nelson B.C. where he is thinking of locating.

Miss F. Pudifin of Plymouth England is visiting Mr. and Mrs. W. L. Mildon.

Miss M. Tilley has accepted a position with Mr. Bassett as telephone operator.

Mr. Percy Costin has been visiting his brother Clarence and left for his home in Chicago Wednesday.

The annual meeting of the United Grain Growers Ltd., will be held in the Co-op hall Saturday afternoon October 25th.

Mr. Leonard and Miss Ralphena Winch of Hazelton B.C. spent a few days visiting their aunts Mrs. H.W. Love and Mrs. W.H. King.

H. W. Love is taking his potatoes out of the pit next week and those who have orders in may get their potatoes next week, weather permitting.

A good supply of wet goods has been distributed in the district of late. Apparently the dealer does not think it necessary to advertise them as we have been unable to locate his address.

## G. W. V. A. Irma Branch

meets first Thursday in the month at 8 p. m. at Irma. All returned men invited.

W. L. Mildon, Pres.  
N. J. Berridge, Secy.

## W APPLES

We are bringing in a car from the growers direct. Place your order at once.

## ONIONS

Good keepers. Special price by the sack lot.

New car of Royal Household Flour due any day. Better have some.

## Dry-Goods

We have a big stock of all lines bought cheaper than today's prices. Come in and look over our stock of Underwear, Sweatercoats, etc.

We can beat the province on our Mitts and Gloves, both as to price and quality.

## Irma Co-Operative Co. Ltd.

See the Co-op for your winter overcoat. They have some of the old stock on hand at less prices than they can be bought wholesale today.

Look for notice of church anniversary service in next week's paper.

### Strayed.

one 3 yr old bay mare weighing about 1250 lbs; narrow white strip on face, one hind foot white, no brand. \$20 reward for her recovery.—C. M. Steele, Clark Manor, Alta. 5tp

FOR SALE—three good milch cows. M. R. Curfman, Irma.

## J. C. McFarland & Company

## A Pimple Remover That Never Fails

Dr. Hamilton Stands Behind His Formula

Bad blood is always responsible for pimples, blackheads and humours. Pimples, eczema and boils are the common result.

I contend that to cure these ills, the liver, kidneys and bowels must receive attention.

My remedy, known as Dr. Hamilton's Pills of Mandrake and Butter-nut, invariably reaches the trouble.

For putting life into sleepy organs, for forcing out every kind of waste and foreign matter, for making health-sustaining blood, where can you find such efficiency as in Dr. Hamilton's Pills?

In a thousand cases I have demonstrated that Dr. Hamilton's Pills cure facial blemishes and skin diseases.

I look upon these pills as the best blood purifier and system builder of the age, and guarantee they will cure every complaint having its origin in a weak or debilitated blood supply.

If Dr. Hamilton's Pills will not cure that tired, run-down condition, if they will not change lack of force into energy and vim, then nothing will.

By creating an abundant supply of rich, nourishing blood they maintain that standard of health so much desired by those participating in the strenuous life we live today.

Get Dr. Hamilton's Pills and prove their merit today, 25c per box.

## THE COW PUNCHER

— BY —  
ROBERT J. C. STEAD

Copyrighted, Canada, 1918, By The Mueson Book Co., Ltd., Toronto. Printed By Special Arrangement.

(Continued.)

A bit of satisfaction was in his teacher's eyes as Dave made this answer. Mr. Duncan had realized that he was starting late with the pupils, and if there were any short cuts to education he must find them. So he had set out deliberately to instill the idea that education is not a matter of schools and colleges, or courses of reading, or formulae of any kind, but a matter of the five senses applied to every experience of life. And he knew that nothing was coarser or common than passed through Dave's hands. Coal had ceased to be a smutty mineral, and had taken on talismanic qualities unguessed by the mere animal workman; and sugar, and coffee, and beans, and rice, and spices, each would open its own wonderful world before this young and fertile mind. As a heritage from his boyhood on the ranges, Dave had astonishingly alert senses; his sight, his hearing, his sense of smell and of touch were vastly more acute than those of the average university graduate. . . . And if that were true, might it not fairly be said that Dave was already the better educated of the two, even if he, as yet, knew nothing of the classics?

As Dave parted from the McIord gang he felt that he knew what Mr. Duncan had meant by the dead-line. These were men who would always shoo! coal, because they aspired to nothing better. There was no atom of snobbery in Dave's nature; he knew perfectly well that shovelling coal was quite as honorable and respectable a means of livelihood as managing a bank, but the man who was content to shovel coal was on the dead-line. . . . And, by the same logic, the man who was content to manage a bank was on the dead-line. That was a new and somewhat startling aspect of life. He must discuss it with Mr. Duncan.

Dave's energy and enthusiasm in the warehouse soon brought him promotion from truck hand to shipping clerk, with an advance in wages to sixty-five dollars a month. He was prepared to remain in this position for some time, as he knew that promotion depends on many things besides ability. Mr. Duncan had warned him against the delusion that man is entirely master of his destiny. "Life, my boy," he had said, "is fifty per cent. environment and forty per cent. heredity. The other ten per cent. is yours. But that ten per cent. is like the steering gear in an automobile; it's only a small part of the mechanism, but it directs the course

of the whole machine. Get a good grip on the part of your life you can control, and don't worry over the rest."

To economize both time and money Dave took his lunch with him and ate it in the warehouse. He had also become possessed of a pocket encyclopedia and it was his habit to employ the minutes saved by eating lunch in the warehouse in reading from his encyclopedia. It chanced one day that as he was reading in the noon hour Mr. Trapper, the head of the firm, came through the warehouse. Dave knew him but little; he thought of him as a stern, unapproachable man, and avoided him as much as possible. But this time Mr. Trapper was upon him before he was seen.

"What are you reading?" he demanded. "Yellow backed nonsense."

"No, sir," said Dave, rising and extending his arm with the book.

"Why, what's this?" queried Mr. Trapper, in some surprise. "Tea—tea—oh, I see, it's an encyclopedia."

"What is the idea, young man?"

"I always like to read up about the stuff we are handling," said Dave. "It's interesting to know all about it; where it comes from, how it is grown, what it is used for, the different qualities, and so forth."

"H'm," said Mr. Trapper, returning the book. "No doubt." And he walked on without further comment.

But that afternoon he had something to say to his manager.

"That young fellow on the shipping desk—Elden, I think his name is. How do you find him?"

"Very satisfactory, sir. Punctual, dependable, and accurate."

"Watch him," said Mr. Trapper.

The manager swung around in his chair. "Why, what do you mean?"

Yr. Trapper's customary sternness slowly relaxed, until there was the suggestion of a smile about the corners of his mouth, and rather more than a suggestion in the twinkle in his eye.

"Do you know what I caught that young fellow doing during noon hour?" he asked. "Reading up the encyclopedia on tea. I'm mind you. Said he made a practice of reading up on the stuff we are handling. We, mind you. Found it very interesting to know where it came from, and all about it. I've been in the grocery business for pretty close to forty years, and I've seen many an employee spend his noon hour in the pool rooms, or in some other back room, or just smoking, but this is the first one I ever caught reading up the business in an encyclopedia. Never read it that way myself. Well—you watch him. I'd risk a ten-spot that he knows more about tea this minute than half of our travellers."

But Dave was not to continue in the grocery trade, despite his reading of the encyclopedia. A few evenings later he was engaged in reading in the public library; not an encyclopedia, but Shakespeare. The encyclopedia was for such time as he could save from business hours, but for his evening reading Mr. Duncan had directed him into the realm of fiction and poetry, and he was now feeling his way through Hamlet. From the loneliness of his boyhood he had developed the habit of talking aloud to himself, and in abstracted moments he read in an audible whisper which impressed the substance more deeply on his mind, but made him unpopular in the public reading rooms. It was well known among the patrons of the rooms that he read Hamlet. This fact, however, may not have been altogether to Dave's disadvantage. On the evening in question an elderly man engaged him in conversation.

"You are a Shakespearean student, I see?"

"Not exactly. I read a little in the evenings. But I haven't gone far enough to call myself a student."

"I have seen you here different times. Are you well acquainted with the town?"

"Pretty well," said Dave, sensing that there might be a purpose in the questioning.

"Working now?"

Dave told him where he was employed.

"I am the editor of 'The Call,'" said the elderly man. "We need another man on the street; a reporter, you know. We pay twenty-five dollars a week for such a position. If you are interested you might call at the office tomorrow."

Dave hurried with his problem to Mr. Duncan. "I think I'd like the work," he said, "but I am not sure whether I can do it. My writing is rather—wonderful."

Mr. Duncan turned the matter over in his mind. "Yes," he said at length, "but I notice you are beginning to use the typewriter. When you learn that God gave you ten fingers, not two, you may make a tyrist. And there is nothing more worth while than being able to express yourself in English. They'll teach you that

## A cool, clean shave for 1/2 of a cent!

A cool, clean, satiny shave for 1/2 of a cent—think of it! At least 500 shaves are obtained from 12 AutoStrop blades, and you often get more than that.

Just a turn or two on the strop and your AutoStrop Razor is ready. After shaving, you press a little lever, put the blade under the tap, wipe it off, and it is ready for the next shave.

There is no need to take the razor to pieces and assemble it again; simply leave the blade where it is from start to finish. This means time saved in the morning rush, and a razor blade that's good for about six weeks' clean, cool shaving.

Razor — Strop — 12 blades — \$5

**AutoStrop SAFETY RAZOR Co., Limited**  
AutoStrop Building, Toronto, Canada

on a newspaper. I think I'd take it.

"Not on account of the money," he continued, after a little. "You would probably soon be earning more in the wholesale business. Newspaper men are about the worst paid of all professions. But it's the best training in the world, not for itself, but as a step to something else. I have often wondered why editors, who are forever setting every other phase of the world's work to rights, are content to train up so many thousands of bright young men—and then pass them along into other businesses where they are better paid. But the training is worth while, and it's the training you want. Take it."

Dave explained his disadvantages to the editor of "The Call." I didn't want you to think," he said with great frankness, "that because I was reading Shakespeare I was a master of English. And I guess if I were to write up stuff in Hamlet's language I'd get canned for it."

"We'd probably have a deputation from the Moral Reform League," said the editor, with a dry smile. "Just the same, if you know Shakespeare you know English, and we'll soon break you into the newspaper style."

So, almost before he knew it, Dave was on the staff of "The Call." His beat comprised the police court, fire department, hotels, and general pick-ups. And the very first day, as though to afford fuel for his genius, a small fire occurred in a clothing store.

"S good for two sticks—about four inches," said the editor, when Dave had given him the main facts. "Write your story to fit."

Dave suddenly realized that, although he had been a persistent reader of newspapers during the recent months, he had scarcely the remotest idea of how many words went to a column, or to an inch. It was a piece of information needed at once, so he set about to count the words in a column. Then he wrote his story to fit. He had already learned that

"The fire bell was heard ringing this morning about ten o'clock, and soon after crowds were seen wending their way to the Great West Clothing Store. There was a heavy black smoke coming from the back end of the store. The firemen were late in getting there, and before they arrived a man had got badly choked by trying to go into the store. Presently the engine came up and before long water was being applied in great quantities, and soon the fire was under control. Part of the roof fell in, and the building is pretty badly ruined. Some of the contents may be for sale. It seems too bad that the fire engine should have been so long in coming, as without doubt if it had got there promptly the fire could have been put out before much damage occurred. However, it might have been worse, as it was a frame of one of the row of other frame buildings, and if the fire had once got beyond control much damage might have been done. Nobody seems to know how the fire started."

It was with much quiet excitement that he awaited the appearance of the evening edition. He had a strange eagerness to see his contribution in print; a manifestation, no doubt, of that peculiar trait in human nature which fills the editorial waste basket with unaccepted contributions.

(To Be Continued.)

## A Pioneer Of Aviation

Alberto Santos Dumont First Pilot to Fly an Aeroplane

To many readers the name Alberto Santos Dumont will be unfamiliar, and yet it is the name of one of the most successful pioneers in aviation.

He is a native of Brazil, and has been president of the Aeronautic Federation of the Western Hemisphere. He is now visiting North America for the purpose of studying the improvements made in aviation since he showed the world in 1901 that it was the first pilot of a dirigible balloon, and the first to fly an airplane.

His interest in balloons developed at an early age, and in 1901 he had perfected a dirigible with which he won at Paris the prize of \$50,000. He was made a chevalier in the French Legion of Honour in 1904 and received the officers' cross in 1909.

"Flying," said Senor Dumont in a recently given interview, "is a young man's game, and I will do my flying now as a passenger." He characterized the Atlantic flights as "wonderful achievements," but said the real progress in aviation is being made in shorter and more practical flights.

"Ely," said Senor Dumont in a recently given interview, "is a young man's game, and I will do my flying now as a passenger." He characterized the Atlantic flights as "wonderful achievements," but said the real progress in aviation is being made in shorter and more practical flights.

## Nationalist Troops Expel Turk Officials

Possession of Konie Is of Great Strategic Importance

Constantinople.—The troops under the Nationalist leader Mustappa Kemal Pasha, who recently set up a separatist government in Asia Minor, have occupied the city of Konie, in southern Asia Minor, and expelled the authorities.

Earlier dispatches had reported the convoking of a separatist parliament by Mustappa Kemal to meet at Erzerum, the site of his government, and activities of his troops in the vicinity of Smyrna and Erzerum.

The presence of his troops in sufficient strength to take possession of Konie, a city of 45,000 inhabitants and one of the most important administrative centres of Asia Minor, had not hitherto been reported in that section. Possession of this city is of great strategic importance, since it is the railroad of the railroads heading from Constantinople and from Smyrna.

Canada's Railways

There are 39,000 miles of steam railways in Canada, but if all tracks be taken into account, such as double tracks, yard tracks and sidings, there are 50,853 miles. The first railway in Canada was opened in 1836 between Lachine on the south bank of the St. Lawrence River, nine miles above Montreal, and St. Johns, on the Richelieu River. Its length was 16 miles. That continued to be the total railway mileage until 1847, when it was increased to 54 miles.

"Where is the Dead Sea, Tommy?" asked the teacher.

"Don't know, ma'am," was the candid reply.

"Don't know where the Dead Sea is?" There was a scorn in teacher's voice.

"No ma'am," came the reply. "I didn't even know any of them was sick."

Teacher: "How do bees dispose of their honey?"

**THE NEW WHEAT METHOD**

In this issue we print a summary of important regulations of the Canada Wheat Board, as will likely apply to local requirements. It will be noticed that a stated price, the minimum, will be paid on delivery, and the seller will then get a Participation form, which shows the amount of wheat he has sold and which when registered with the Board, will entitle the holder a sum of money, to be named when the total crop is sold and the wheat sold at an increase over the minimum price and an average struck for the total amount of bushels sold in the dominion. Just how much over the first payment, a farmer will receive is as yet an unknown quantity. The method brings to mind to story of the old fellow who on the wedding of his daughter, presented her with a china cup. His wife then asked him why he didn't give her the saucer at the same time. "Oh, well," he said, "I am saving that to give her as a birthday present next year. It will be something to look forward to."

**Irma News**

Mr. R. T. Brown of Kincardine Ontario is visiting with Mr. Maguire Manager of the United Grain Growers Elevator. Mr. Brown is thinking of locating in the Irma district.

The recent cold spell caught several farmers with their potatoes and garden truck still in the ground. Potatoes that were planted deep will probably escape the frost but most of the other roots and vegetables will be of little use.

Mr. M. M. Cook former manager of the U. G. Co local elevator spent Monday in Irma visiting his wife and the new baby. Mr. Cook reports bumper crops in the Bashaw district.

The way the farmers are turning off their cattle it looks as if the range around the Irma district was going to be pretty well cleaned up of range stock. It will take some years to replace some of the herds that are being shipped out.

Mr. S. Cappell has sold his cattle and intends spending the winter in the East. Mr. Cappell will be greatly missed this winter especially by those who enjoy music. Stewart has always taken a great interest in our Band and Orchestra.

Since the summer holidays none of the school teachers have sent in the reports of their schools. We are always glad to see the reports and will be pleased to print them if the teachers will forward them to the Irma Times or to Mr. H. W. Love.

We understand Mr. C. E. Cox has sold out his Blacksmith shop and tools to Mr. N. K. McCloud who is taking possession next week. Mr. W. H. Lyle who has had the shop rented will probably be leaving for a new location.

**VIKING**

There was quite a representation from Viking and district at the Kinsella stampede last Monday and if the weather had been favorable the number would have been greater.

An engine got off the track on the siding Tuesday afternoon owing to a defective rail and the crew had considerable trouble in putting it on the track again.

The E. H. Kirsh sale drew a large crowd last Thursday and the goods sold well. Col. Stewart was the auctioneer. Mr. Kirsh who has been in failing health the past summer expects to locate somewhere on the coast.

Rev. and Mrs. J. A. Wheeler arrived from Leduc last Friday and are occupying the parsonage of the Community church. The church was well filled Sunday evening when the pastor gave his initial sermon. The choir rendered special music.

The world's baseball series which terminated last Thursday at Chicago when the Cincinnati Reds won the world's series from the Chicago White Sox, winners of the American league, in the eighth game by the score of 10 to 5. Cincinnati won 5 games out of 8 played and thereby annexed the title of world's champions. Locally there was considerable interest taken in the series, supporters of the two leagues placing small bets on the results of the games as well as the series. The News got the returns from Edmonton thru the courtesy of the sporting editor of the Bulletin who phoned the results, score by innings, batteries, etc. immediately after every game, and the same were promptly posted on the News bulletin board for the benefit of the fans, about two in the afternoon. The News phone was also busy replying to queries in regard to the results.

All changes of advertisements must be in not later than Tuesday to insure change for that week.

Friday, Oct. 17th 1919

**New Scheme Proposed to Soldiers'  
Re-establishment**

OTTAWA, Oct. 11.—An alternate plan of assisting veterans according to length and character of service was submitted to the special committee on soldiers' civil re-establishment yesterday by Col. J. W. Margeson, a member of the board of pensions commissioners.

Col. Margeson's plan is to give every man who served in a theatre of war as a combatant seventy cents per day from enlistment to discharge. Men serving in England or Siberia would draw forty cents per day, and men who served in Canada, twenty cents per day.

There would be a limit of \$1,500 on the amount any man could receive, this to include gratuities. In that way officers who had drawn big gratuities would not receive any large amount in re-establishment grants.

Col. Margeson would treat married and single men alike with the exception that regardless of the amount of gratuity already paid a married man, he would be considered to have only been paid the rate of a single man. He would limit the amount of cash to \$500 and place the rest of a man's re-establishment grant to a man's credit with the government, so that he could draw on it for any of the government re-establishment plans.

Under Col. Margeson's idea widows of deceased soldiers would be paid a stated sum, all alike, regardless of their husband's service, this sum to be paid as additional to their pensions.

Col. Margeson said his plan had been placed before the Ottawa branch of the G. W. V. A. but had not been voted on.

**APPLICATION FOR LEASE OF  
ROAD ALLOWANCE ON  
SURVEYED HIGHWAY.**

NOTICE is hereby given that JOHN BUCK of Daveport, Washington, has made application to the Minister of Public Works, Edmonton, for a lease of the following road allowance or surveyed highway, viz:

1 mile on north of Sec. 33, Township 47, Range 8, Meridian 4. Any protest against the granting of the above mentioned lease must be forwarded to the Minister of Public Works, Edmonton, within thirty days from the date of this notice.

**Economy: IN FARM BUILDINGS**

TO GET THE LEAST WALL AREA—TO SAVE BUILDING MATERIAL—TO SAVE IN COST OF CONSTRUCTION—TO REDUCE HEAT LOST THRU WALLS

Are all considerations of Economy

Sometimes too little money is invested in farm buildings, in which case undue labor is required in taking care of the stock. Work is often done at a great disadvantage, to save a few dollars when the buildings are being constructed.

Plank Frame Barns—using nothing heavier than 2 inch plank—cost less to build and are becoming very popular. The principal reasons for this are, that his method saves in cost of lumber and provides for more storage room in the hay loft.

## The Canadian Wheat Board

The following information regarding the workings of the Canadian Wheat Board as it applies to handling of this year's crop.

For some time owing to the war, overseas purchases have been conducted largely and for various reasons wholly through government organizations and by reason of such conditions, the crop of Canada for the past two seasons has been placed under the control of the Board of Grain Supervisors for Canada, which body has been invested with powers conferred upon it by the order in council of 11th June 1917.

As regards the crop of 1919, and any other wheat undelivered on the 15th day of August 1919 it does not appear that there will exist in importing countries likely to require or purchase same, any organized buying at fixed prices such as prevailed in recent years nor any open and stable market of the character that obtained prior to the war.

The United States government has through a constituted agency undertaken many months ago and during the continuance of active hostilities in the present war the purchase at a fixed price, of the crop of that country for the year 1919 and the marketing of same at home and abroad.

Under these abnormal conditions resulting in uncertainty of price and instability of market, it would appear that in order to secure that early movement of the Canadian crop which is so essential and that fair distribution among our wheat producers of the actual value of their product, as determined by the world demand for same throughout the entire season of marketing which is equally desirable action should be taken by the government looking to the purchase of storage, movement, financing and marketing of the wheat grown in Canada in 1919 and other wheat undelivered in Canada on the 15th of August.

The government has therefore appointed the Canadian Wheat Board, consisting of not more than ten members.

The chairman and assistant chairman are the only salaried members, others only receiving their travelling expenses.

The board shall have power to take delivery of wheat in Canada at any point.

To pay by way of advance to the producers or other persons delivering wheat to the board such price per bushel according to grade and quality. To sell wheat so delivered to millers in Canada for milling purposes at such prices and subject to such conditions as the board sees fit. The price of sale to millers being governed as nearly as may be by the price obtainable at the same time in the world's markets for wheat of equal value regard being had to the cost of transport, handling and storage.

To store and transport such wheat with a view of marketing of same. To sell wheat so delivered in excess of domestic requirements to purchasers overseas or in other countries for such prices as may be obtainable.

In cooperation with the Seed Purchasing commission of the Department of Agriculture and by sale to such commission or otherwise to provide for the retention or distribution in various parts of Canada of such wheat as may be necessary for seed in 1920.

To fix prices or margins of profit at which flour and other products made from wheat delivery to millers may be sold.

The Board may make payment by authorization to a chartered bank or to chartered banks to pay under such conditions and on production of such vouchers as the board may by regulation provide, and the governor in council guarantees repayment of any monies so paid by a bank or banks with interest at a rate not exceeding six per cent.

The board has power to order any railway company to provide cars and other transportation facilities for handling grain and to transport as directed wheat delivered to or by the board.

### Seed Grain Regulations

No person unless licensed is allowed to buy or handle wheat, except where it applies to:

Registered seed wheat.

Wheat grown from seed of recognized merit in respect to purity of variety subject to permit being granted by the Canadian Government Seed Purchasing commission.

Wheat bought by one farmer from another for seed or feed purposes, which has not gone through an elevator or, which has not been loaded on cars either through an elevator or over the platform.

### Participation Certificates

The Participation certificate is a form which is filled out when a person brings grain to the elevator and sell it. The certificate states that so many bushels of grain has been delivered, of a stated grade and a stated price. The certificate must be signed by the elevator man and is then registered at the central office.

Every Participation Certificate shall be negotiable.

Every Participation Certificate if registered with the board when endorsed or purporting to be endorsed by the producer shall on being surrendered to the board after the 31st day of October 1920, and before the 31st day of December, 1920, entitle a person surrendering it to participate in and receive from the Board a pro rata share (based upon the number of bushels stated in the certificate) with all others holding Participation Certificates registered with the board in the cash balance, remaining in the hands of the board of the moneys received by the board in payment for all wheat delivered to and sold by the Board after deducting from such moneys all moneys disbursed by or in behalf of the Board for advances, expenses or otherwise connected with or incident to the operations of the board, as provided in the order in council.

Unless otherwise ordered by the board no claim made under or in respect to any Participation Certificate will be paid unless such claim is made and Participation certificates surrendered to the board on or before the 31st day of December 1920.

### Dealer Issues the Certificate

Every person, firm or corporation licensed by the board who has issued any cash ticket for wheat, shall, at the time of issuing the same issue to the producer a receipt as to Participation Certificate in the form set out in schedule B or C to the like effect.

### Cash Payments

The cash payment to be paid to the producer shall be:

No. 1 Hard	\$2.15
No. 1 Manitoba Northern	2.15
No. 2 Manitoba Northern	2.12
No. 1 Manitoba Northern	2.08
No. 1 Alberta Red Winter	2.15
No. 2 Alberta Red Winter	2.12
No. 3 Alberta Red Winter	2.08
Special No. 4	2.02
Special No. 5	1.91
Special No. 6	1.81
Rejected 1 Northern	2.04
Rejected 2 Northern	2.01
Rejected 3 Northern	1.96
Smutty 1 Northern	2.06
Smutty 2 Northern	2.03
Smutty 3 Northern	1.99

These cash payments are basis in store public terminal elevators at Fort William and Port Arthur: the grades are those provided for in the Canada Grain Act.

Until further notice the price of wheat to mills in Canada is fixed on the following basis per bushel:

\$2.20 per bushel including 5 cents per bushel carrying charges basis No. 1 Northern in store public terminal elevators Fort William and Port Arthur.

### Re Grist Wheat

It is hereby ordered by the Canadian Wheat Board:

Each mill licensee of the board who grists wheat for farmers or other owners thereof, shall for the purpose of participation certificates and of the fifteen cents per bushel payable to the board treat all wheat received for gristing for such farmers or other owners as a purchase and each licensee shall apply for the proper number of bushels delivered by him for gristing and shall also remit to the board fifteen cents for each bushel of wheat so delivered. Each such mill licensee in regard to such participation certificates shall be governed by and shall observe and keep a every respect regulation No. 3 of the board governing participation certificates in the same manner and to like effect as if such mill licensee had purchased the wheat and had issued a cash ticket to the producer when wheat was delivered by such producer for gristing.

### Embargo on Shipping

It is hereby ordered that no wheat shall be transferred by any railway company out of the following areas of Alberta and Saskatchewan without a permit from the board:

In Alberta: the area bounded on the north by the Canadian Pacific railway line running from Lacombe to Compeer inclusive; on the west by the boundary line between the provinces of Alberta and British Columbia; on the south by the boundary line between the United States and Canada; and on the east by the boundary line between Alberta and Saskatchewan.

# Strikers Denounced By Lloyd George

London.—Premier Lloyd George surprised his countrymen, as he frequently does, by denouncing the railwaymen's strike as "Prussianism" and "another effort to hold up the community and strangle it into submission," at the Lord Mayor's Mansion House luncheon in honor of Field Marshal Allenby.

The occasion was an unusual one for such a topic, but the Premier has a habit of doing unusual things at unusual times. Near him sat Emir Faisal, son of the king of the Hedjaz, in white robes, and the Archbishop of Canterbury with an array of other military and civilian notables, such as only London can muster on ceremonial occasions. They expected nothing more sensational than compliments to the conqueror of Palestine.

"The nation means to be master in her own house," Mr. Lloyd George declared, "a just master, a fair master, a generous master, but always master in her own house."

This was naturally accepted as a proclamation of the Premier's view that the country won a victory over the strikers.

J. H. Thomas, secretary of the National Union of Railwaymen, and leader of the recent strike, speaking at Albert Hall, dwelt on the settlement of a compromise, and issued a statement appealing for reconciliation and a burial of hard feeling.

Labor papers appear to differ with Mr. Thomas as to some aspects of the strike settlement. When Mr. Lloyd George makes an important speech, newspapers try to "read between the lines to discover his political purposes. The general interpretation of this speech is that the Premier has broken with labor unions and wants to draw to his support the middle classes, who apparently tended to drop away from him as a result of the recent campaign upon the alleged governmental extravagance.

## Argentina Will Give Credit

Government Acceded to Request of France and Italy  
Buenos Ayres.—Declaring that large stocks of Argentina grain would not be sold unless the government acceded to the request of France and Italy for a credit of \$200,000,000 with which to purchase cereals, a delegation representing the chamber of commerce of Rosario, a great grain center, requested President Irigoyen to expedite the loan by calling an extra session of congress. The regular session adjourned recently without acting on the loan. President Irigoyen indicated he would endeavor to convene congress as early as possible and would recommend the loan as business of the first importance.

## Bulgaria Seeks Time Extension

Paris.—The supreme council will meet to reply to the request of Bulgaria for an extension of ten days to the time granted it for presentation of its observations on the treaty handed to the Bulgarian commissioners September 19.

London.—The Cork Development Association has received a cablegram from Henry Ford stating that he is considering running a line of steamers to Ireland.

# Move to Regulate Price of Clothing

Toronto.—Immediate and effective action to regulate clothing prices was forecasted by Commissioner Murdoch of the Commerce Board, at the conclusion of the board's investigation into clothing prices here. Col. W. H. Price, government counsel, had addressed the commissioner, calling attention to evidence which he said warranted action on the part of the board, and Commissioner Murdoch replied:

"I am firmly convinced that something should be done to reduce the price of clothing, and so far as I am concerned, as one member, I will hope to see something done promptly and effectively."

Commissioner Murdoch said he concurred in Col. Price's declaration that there had been too much profit made by some of the clothing houses whose affairs had been investigated. "And I am further of the opinion," he went on, "that there is more than net profit involved; that there is profit

## Plan Reform in Election Laws

Double Representation Not Permissible If Amendments Are Approved

Ottawa.—Double representation of constituencies in the Dominion parliament will not be permissible in future if amendments to S. W. Jacobs' bill to change the House of Commons Act agreed to by the privileges and elections committee are approved by parliament.

Mr. Jacobs' bill, as originally introduced, provided that a member elected for two seats must, within thirty days, make a choice as to the seat he proposes to represent.

The committee, after considerable discussion, agreed to an amendment providing that no person shall be eligible for election to the House of Commons in more than one electoral district at the same time. The further provision is made that if a man accepts nomination in two constituencies such nominations will be null and void. The law will apply to by-elections as well as to general election contests.

The clause in Mr. Jacobs' bill, which made provision for the filling of vacancies which occurred within 60 days, was also changed. The amendment provides for the filling of such vacancies within six months.

## Strikers Granted Increase

London.—A court of arbitration considering the demands of the trammen and bus-workers in London and the provinces has made an award granting an increase in wages amounting to four shillings weekly to those over 18 years of age and two shillings to those below that age. The recent agitation among the men was for an increase of 12 shillings weekly.

Prohibition Has Large Majority  
Christiania.—The vote by which Norway adopted the prohibition of whiskey, brandy and other strong liquors in the referendum was 428,455 in favor of prohibition and 284,137 against.

Christiania was strongly against the proposition, only 18,500 voting for it, as compared with 70,000 in opposition. The measure does not affect wines and beers.

## Dominion Guards Unlikely

London.—The London correspondent of the Manchester Guardian intimates that the suggested establishment of a battalion or regiment of Dominion Guards for an addition to the home brigade has been found impracticable, but possibly the idea of attachment of recognized Canadian, Anzac or South African units may be attainable, though presenting considerable difficulties.

## Irish Bill For New Session

London.—Parliamentarians say the Irish bill will be the feature of the new session of parliament, and the cabinet is now considering one drafted on lines of dominion home rule, but with suggested alterations that any county may stand out, or Ulster counties be all included and have their own secretaries of state.

In Madras the tanning of snakeskins for the manufacture of women's belts has become quite a profitable industry.

## Nationalists Capture Konieh

Apprehension That Turkish Throne May Be In Danger

Paris.—Konieh, an important railroad centre, is in the hands of the Turkish nationalist troops.

This city, which in the days of Roman power was known as Iconium and was the capital of the province of Lycaonia, stands in a position which virtually dominates South Asia Minor. Its capture appears to indicate that Mustafa Kemal is in control of the vast region stretching from Konieh from the southwest to Erzerum, the principal city of Turkish Armenia, a distance of 425 miles. It is said the fall of the Turkish cabinet was caused by the capture of Konieh, and there seems to be some apprehension in some quarters that the Turkish throne may be in danger.

On the other hand, French circles point out that Djemal Pasha, the newly appointed Turkish minister of war, is a political ally of Mustafa Kemal.

Great Britain began to withdraw her troops from Armenia in August, and it is probable this movement is now far advanced. France has forces in Syria, while Greece and Italy have small detachments at various points along the coast of Asia Minor.

None of these nations, however, appears to have sufficient forces to conduct a campaign in the interior of the country. Great Britain's army in Mesopotamia and in Palestine, to the east and south, seems to be too far away to menace the spread of the Turkish nationalist movement, led by Mustafa Kemal.

## Prohibition in Norway

Despite This, Arrests for Intoxication Have Been Increasing

Christiania.—War-time prohibition, operating since December, 1916, and forbidding the sale and private importation of spirits and strong liquors has been made permanent.

Despite this prohibition, arrests for intoxication have been steadily increasing throughout the country, and in some places have been higher than before the war-time prohibition was put into effect.

Substitutes for liquor, especially denatured alcohol, are being used everywhere. Illegal distillation also is increasing, especially in the rural districts.

It is feared that France, Spain and Portugal, from which countries liquor was imported, may retaliate with a tariff on Norwegian products, such as timber and fish, thereby injuring especially the Norwegian fish trade, 60 per cent of which goes to Portugal.

Barrage Removed From North Sea  
Washington.—Removal of the great North Sea barrage laid by the United States navy during the war has been completed.

This was disclosed when Secretary of the Navy Daniels made public a cablegram of congratulation sent to Rear-Admiral Strauss, who commanded the force which since last October had been engaged in the hazardous task of sweeping the 50,000 mines from the sea.

Only one serious accident attended the work, one of the sweepers being blown up with the loss of several lives.

## King Albert Runs Train

Chicago.—The King of the Belgians ran the engine of his own train for ten miles. The special train on which the King and his party are travelling westward was stopped at Wauson, Ohio, while His Majesty climbed into the cab of the engine and took over the throttle from the grimy pilot. The King, who has a thorough knowledge of locomotive engineering, ran the heavy train for 10 miles without a jolt, then he stopped the engine and returned to his car.

## Fatal Tornado in Kansas

Holington, Kas.—Two persons were killed and 25 injured, some of them seriously, and property damaged, estimated at a quarter of a million dollars, resulted when a tornado struck here and swept a path of destruction several blocks wide through the business and residential section of the city.

## Police Reach Budapest

Paris.—The arrival of 1,800 British soldiers, forming part of the international detachment to take over the police service at Budapest after the departure of the Rumanians, is reported in dispatches from the Hungarian capital. Two thousand Italian soldiers are also expected.

## Amsterdam.—The former German

emperor will remove from Amerongen about December 16, and take up his residence at Doorn.

## Concerning Shipping Supervision

Co-operation to Be Introduced in Control of Ocean Tonnage

Ottawa.—Replying to a question by J. E. Armstrong, Sir George Foster, Minister of Trade and Commerce, stated that the Dominion Government has called the Imperial Government's attention to injustices in connection with the supervision by the British Ministry of Shipping in the employment of vessels, under charter by Canadian shipping interests.

In reply to another question, Sir George stated that the Canadian Government will co-operate with the Imperial Government and other overseas dominions in considering the question of the supervision and control of ocean tonnage between the different parts of the British dominions.

In reference to a report of a British royal commission in favor of government supervision in transatlantic shipping, the minister stated that this report will probably form the subject matter of consideration at the next Imperial conference.

## Heavy Expenditures

Deputy Minister of Finance Submits Figures to Committee on Soldiers' Civil Re-establishment

Ottawa.—A presentation of the government's obligations in regard to the payment of perhaps \$200,000,000 re-establishment grant in addition to the burdens already to be borne, was given to the special committee on the soldiers' civil re-establishment by T. C. Boville, deputy minister of finance. Since March 31, 1914, the public net debt has increased 580 per cent, from \$335,996,000 to an estimate for 1919-20 of \$1,950,000,000. Pensions are estimated this year at \$30,000,000; land settlement, \$25,000,000; and soldiers' civil re-establishment, \$10,000,000. Interest on the public debt has risen from \$12,093,000 in 1913-14 to \$102,762,000 this year.

War expenditures for 1919-20 were estimated at \$350,000,000 exclusive of pensions, and this year's consolidated revenue receipts were estimated at \$244,000,000.

## For Sweeping Reform

National Women's Council Present Views on Many Subjects

Calgary.—Resolutions asking that second offences for bootlegging be punishable by jail sentences, that equal parental rights be established in the province, that widows be given greater power under the Dower Act, that a living wage be incorporated in the Factories Act, that hotels and lodging houses be licensed to bring them under police regulation, and that marriage licenses be issued only from courthouses by responsible parties and that the lists be published every day, were passed by the provincial executive of the National Council of Women, which met here recently.

## Will Investigate Irrigation in West

Ottawa.—The agriculture committee of the commons recently gave consideration to the question of irrigation in the dry areas of the prairie provinces. During the discussion the important announcement was made by Professor J. A. Grisdale, Deputy Minister of Agriculture, that the Department of Agriculture, realizing the importance of this matter, is undertaking to carry on a thorough enquiry into the whole question, which may lead to important results.

## Italy Ratifies Peace Pacts

Rome.—King Victor Emmanuel has ratified the German and Austrian treaties of peace. The Giornale d'Italia says that each decree contains two articles, the first authorizing the government to execute the treaty fully and the second setting forth that the documents be presented to parliament to be converted into law.

## Irish Home Rule Bill

London.—Parliamentarians say the Irish bill will be the feature of the new session of parliament, and the cabinet is now considering one drafted on lines of dominion home rule, but with suggested alterations that any county may stand out or Ulster counties be all included and have their own secretary of state.

## Ready to Ratify Pact

London.—Great Britain's ratification of the Peace Treaty, the Foreign Office says, awaits only the King's proclamation. All the dominions have ratified the treaty, the Australian House on September 15 and the Senate on October 15.

W. N. U. 1285

# Right of Provinces To Enforce Prohibition

Gen. Mangin Will Assist Denikin

He Will Be Accompanied By Russian Ambassador to Paris

Paris.—General Mangin, whose recall to Paris from command of the eighth army, has just been announced, is to proceed to south Russia and join General Denikin, the anti-Bolshevik commander there, according to L'Eclair. He will be accompanied by Basil Maklakoff, Russian ambassador to Paris, whose mission being to co-ordinate the policy of the anti-Bolshevik government.

The eighth and tenth French armies are being broken up as units, and Generals Mangin and Gerard, who commanded them, have been recalled and placed at the disposition of the minister of war. Newspapers are greatly interested in this step, and explain it differently. While the opposition press insinuates that General Mangin may be out of favor, which it insists is undeserved, a majority of the newspapers declare the move is only an administrative measure resulting from the grouping of occupation groups in the Rhineland. It is said the eighth and tenth armies will soon be re-formed into a single corps, which will be commanded by General Doughtie.

## Want Standardized Parts

Ottawa.—The Commons' committee on agriculture received the report of the manufacturers' committee dealing with the proposal that the standardization of parts of agricultural implements should be agreed to in order to make it more convenient and save cost to the farmer. The report pointed out a great many difficulties in the way of successfully carrying out the plan.

After some discussion it was agreed not to allow the matter to drop, but to continue the discussion with the manufacturers during the parliamentary recess.

## Quantity of Liquor Seized

Winnipeg.—Intoxicating liquor, rye whiskey, Scotch whiskey, Irish whiskey, cherry whiskey, gin, brandy and rum to the estimated value of \$20,000 was seized by the city police morality department at the corner of Notre Dame avenue and Charlotte street. S. Gold, head of the firm of Gold & Cheick, alleged to have been carrying on the business of wholesale bootlegging, was filling bottles with liquor, surrounded by many modern appliances to facilitate, when arrested.

## General Gouraud High Commissioner

Paris.—General Gouraud, whose brilliant defence in the region east of Reims baffled General Ludendorff in his attempt to crush the French army in the offensive of July, 1918, has been appointed high commissioner of France in Syria and commander-in-chief of the French army in the east. His appointment will be officially made public in the Journal Officiel.

## California to Entertain King Albert

Santa Barbara, Calif.—Wild boar hunting on Santa Cruz Island, seaplane flights, motor jaunts about the city, a banquet, and other features are on the program to be tendered King Albert and Queen Elizabeth of Belgium and members of their suite upon arrival here.

# Increased Gratuities A Heavy Burden

Ottawa.—A further statement of the difficulties facing the government which make payment of \$200,000,000 or more in gratuities a difficult matter for the administration to face, was placed before the special committee on soldiers' civil re-establishment by Sir Thomas White, former minister of finance.

The former minister of finance was calling attention to the many heavy expenditures which the government was called upon to face from the forthcoming Victory Loan. Without any new debts incurred, the major portion of this loan would be taken up in bank debt and other obligations.

"Canada's financial position," he said, "while it should not be called critical, is still serious because of five years' war expenditure to call for most careful administration. The policy of all the nations

Ottawa.—Legislation making it possible for a province to have absolute prohibition, either of importation or manufacture, or both, of spirituous beverages, was introduced in the house by Hon. C. J. Doherty, Minister of Justice. Before a province can bring about bone-dry conditions, however, there must be a plebiscite taken under the authorization of the resolution amendment by the provincial legislature. "When this has been done, and a plebiscite is duly taken, then whatever the plebiscite provides for will be brought about by proclamation, issued in accordance with the proceedings provided in the Canada Temperance Act, of which the bill introduced is an amendment."

Replying to a series of questions by W. F. MacLean, the minister explained that the present law in Ontario in regard to which a referendum is being taken, does not deal with the question of the importation or manufacture of liquor. The province, he said, takes the position that they cannot deal with that question. "This," added the minister, "referring to the bill he had just introduced, 'would be a method whereby in virtue of Dominion legislation becoming operative by the vote of the electorate of a province, importation into that province or manufacture in it would be prohibited.'"

## Italians Are Excited

By Warnings With Regard to Situation at Fiume

Rome.—Much excitement in political circles and extended comment in the press has been caused by the reported receipt of warnings from Great Britain and the United States to Italy with regard to the situation at Fiume. It is declared that British warning stated in effect that if "the present illegal situation" at Fiume should continue Italy would "run the risk of being put out of the alliance and the peace conference," and that it was received a few days after a similar warning from the United States.

The Tribuna prints a violent article stigmatising the warnings and saying that the British and American warnings should not be addressed to Italy. But it declares that "Fiume is not Italy; in fact, Fiume is fighting against the Italian government which, together with the other allies, is unable to solve the Adriatic problem, after the disavowal of the pact of London."

## Japan to Ratify Pact

Paris.—Ratification by the Japanese parliament of the German peace treaty is not required by the constitution of Japan according to information from peace conference circles. Signature by the Emperor after consultation with the private diplomatic council constitutes the necessary ratification, and this is expected to take place by October 15.

## Will Release Poles

Warsaw.—A Polish-German agreement has been signed by the Polish delegation at Berlin providing for the release of Poles interned in Germany for their military, political or national activity. The revoking of all sentences imposed on Poles and free return of the agreement which concerns Upper Silesia as well as Poland. The agreement will be in force immediately after its ratification.

which were belligerents will be toward retrenchment for the next few years."

In regard to the forthcoming loan, Sir Thomas said he had no misgivings. It would probably be well over-subscribed, he could see that, from present indications, a further loan would be necessary next year. Canada had had to borrow money to finance purchases by Britain and her allies in order that Canada's own trade might not suffer.

"I do not see how it would be possible for the government to raise any such further sum as is suggested. Its credit is to be maintained," said Sir Thomas. The ex-minister expressed the view that should the government decide to grant a large amount of additional aid to soldiers, the money would mostly have to be produced by domestic loans.

## A Happy Family

BY DR. R. C. DOWERS.

A happy family is one that can sit down to the table with keen appetites and good cheer. Plenty of the out-of-doors and cleanliness, inside and outside of the body, will make for health, wealth and happiness. Your doctor will tell you that anything from a headache to the most serious illness may result from allowing food to ferment in the intestines. The first thing to do in case you feel mean, logy, dull, perhaps feverish, is to flush the liver and kidneys, drink plenty of water, and take a dose of castor oil, or, something better, made of May-apple, aloin and jalap, and long sold by almost every druggist as Dr. Pierce's Pleasant Pellets. This may save you from a fit of sickness, remove the poisons from the system and give the tissues of the body a chance to build up and resist disease.

People are realizing more and more that the kidneys, just as do the bowels, need to be flushed occasionally. The kidneys are an eliminative organ and are constantly working, separating the poisons from the blood. Uric acid backs up into the system, causing rheumatism, neuralgia, dropsy and many other serious disturbances.

This can be avoided by stimulating the kidneys to increased action, and because of its tonic effect on these organs I would advise any one to get Anurie (anti-uric-acid) which is to be had nowadays for fifty cents, at almost any drug store.

### To Dig Out

Prices Will Fall When Production Is Increased

There is only one sure way to cut down the cost of living. Prices will fall when production is increased. With larger supply of what everybody needs to eat, drink and wear and for shelter there will be concurrent drop of cost to the consumer. At the same time there is brought about an equivalent rise in the wages of labor. To stop work is to decrease production. Having endured the war we must now begin the work of repair. One little word of three letters shows the way out of the world dilemma. That word is "dig."—From the Philadelphia Record.

The sneer of the jealous fool is apt to proclaim the wise man's merit.

Fresh Supplies in Demand.—Wherever Dr. Thomas' Electric Oil has been introduced, increased supplies have been ordered, showing that wherever it goes, this excellent Oil impresses its power on the people. No matter in what latitude it may be found its potency is never impaired. It is put up in most portable shape in bottles, and can be carried without fear of breakage.

### She Let Him Choose

She: What an atrocious necktie! I wouldn't trust you to select anything, you have so little taste. He (chuckling): You forget that I selected you, my dear. She: You think you did, but you didn't really.

### RHEUMATIC PEOPLE

Can Only Find Relief By Enriching the Blood

Rheumatism is a disorder of the blood. It attacks people when the blood is overcharged with acid and impurities, thus setting up inflammation in the muscles and joints. Wet weather or cold waves of autumn may start the tortures of rheumatism, but is not the cause. The cause is in the blood and the blood only. Victims of this malady have every reason to fear the first dull ache in the limbs and joints, followed by sharp pain through the flesh and muscles; these are the symptoms of poison in the blood which may shortly leave the victim pinpricked and helpless.

There is only one way to cure rheumatism, and that is through the blood. Liniments, hot applications, and rubbing may give temporary ease, but cannot possibly root the trouble out of the system. That can only be done by the rich, red blood which Dr. Williams' Pink Pills actually make. This new blood drives out the poisonous acids and impurities, and the rheumatism disappears. If you are a sufferer from this painful malady begin curing yourself today by the use of Dr. Williams' Pink Pills, and see how soon the pains and stiffness of the joints fade away, leaving behind new energy and new health.

You can get Dr. Williams' Pink Pills from any medicine dealer or by mail at 50 cents a box, or six boxes for \$2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

The more a baker loafs the more bread he has to dispose of.

In former times Sandwich Island widows had their husbands' names tattooed on their tongues.

## CLARK'S

Spaghetti

with Tomato Sauce and Cheese is Great.

Ready to serve. Just heat and eat.

W. CLARK, LIMITED, MONTREAL.

### Indians Kill Game Out of Season

Department Has Received Numerous Complaints of Activities of Indians

Regina, Sask.—An accusation that Indians are killing off big game out of season is made by F. Bradshaw, chief game guard for Saskatchewan, who states that the toll taken illegally by the redskins during the past few years is jeopardizing the existence of some of the finest fauna on the North American continent.

While the Indians rarely hunt big game during the open season, they are shooting down moose and elk during the months of August, September and October, when they are easily lured to destruction by the use of a call. The department has received numerous complaints of the activities of the Indians in recent years, and investigation proves that in nearly every instance the allegations are fully substantiated.

### GET SLOAN'S FOR YOUR PAIN RELIEF

You don't have to rub it in to get quick, comforting Relief

Once you've tried it on that stiff joint, sore muscle, sciatic pain, rheumatic twinge, lame back, you'll find it warm, soothing and never thought a liniment could produce. Won't stain the skin, leaves no muss, wastes no time in applying, sure to give quick results. A large bottle means economy. Your own or any other druggist has it. Get it today. 35c, 70c, \$1.40. Made in Canada.

Bolshevists Rob Swedish Legation Stockholm.—Dr. Hellner, Minister of Foreign Affairs, has received from private sources news that the Swedish legation at Petrograd had been looted by Bolshevists. An enquiry has been opened.

Minard's Liniment Co., Limited. Dear Sirs—I can recommend MINARD'S LINIMENT for Rheumatism and Sprains, as I have used it for both with excellent results. Yours truly, T. B. LAVERS, St. John.

### The Land Of The Seaplane

The Scandinavians Feel Attracted To The Flying Boat

The creeks and fjords of Scandinavia, from which the Vikings derived their name, appear to be going to play as important a part in the history of the country as they did in ancient days. By Scandinavia by her natural formation and proclaims herself the very home of the seaplane, so that it was with particular interest that the citizens of the three kingdoms watched the successful flight of the British seaplane which, only the other day, flew to Christiansand from Dundee and then went on in stages to Christiania, Copenhagen, Stockholm, Göteborg, Ebers, and then back to the east coast of England. The Scandinavians are a seafaring people and they see any number of seaplane harbors dotting their land. There, in Sweden, is a natural sea-gate lakes, Vattern and Vanern, the Gotha canal and any number of lagoons and inlets. As for Norway, she is magnificently well off in the matter of fjords and all the large towns of Denmark are approachable by water. The British flying boat in its journey across the North Sea performed the somewhat remarkable feat of arriving at the scheduled time and landing only two miles away from the intended "land-fall" on the Norwegian coast, although it had thick mist and clouds to contend with "all the way."

Pensions for R.N.W.M.P. Dependents Ottawa.—Pensions and compassionate allowances to widows and children of deceased members of the Royal Northwest Mounted Police are provided for in a proposed resolution which Hon. N. W. Rowell will bring before the House. Dependents of officers having served ten years would be eligible. The resolution would also increase the salary of the commissioner of police to \$4,000 a year.

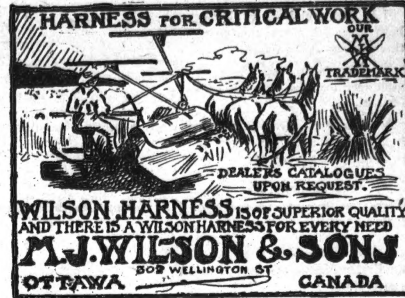

W. N. U. 1285

### COLT DISTEMPER

You can prevent this loathsome disease from running through your stable and cure all the colts suffering with it when you begin the treatment. No matter how young, SPOHN'S DISTEMPER COMPOUND is safe to use on any colt. It is wonderful how it prevents all distemper, no matter how the colt or horse is exposed. SPOHN'S is sold by your druggist.

SPOHN MEDICAL CO., Sole Mfrs., Goshen, Ind.

### Which Are The Seven Seas?

That there is magic and mystery in numbers is an ancient tale, and the fact is confirmed by a correspondent asking: "Which are the seven seas?"

Upon inquiry, there appears to be a common consensus as to six of the seven, these six being the Atlantic, the Arctic, Antarctic, Pacific, Mediterranean, and Indian. And just as the ancients, agreeing on six, were divided upon the seventh wonder of the world (some voting for the Pharos of Egypt, others for the Palace of Cyrus), so there is doubt as to whether the seventh sea be the Baltic or the North Sea.

The man who is long on words is apt to be short on deeds.

### Catarh Cannot Be Cured

by LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarh is a local disease, greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE will cure catarh internally and acts through the blood on the mucous surfaces of the system. HALL'S CATARRH MEDICINE is composed of some of the best tonic known, combined with some of the best blood purifiers. The perfect combination of the ingredients in HALL'S CATARRH MEDICINE is what produces such wonderful results in catarh conditions.

Druggists 75c. Testimonials free. F. J. Cheney & Co., Props., Toledo, Ohio.

### Report of Industrial Conference

A wide circulation of the verbatim report of the proceedings with the industrial conference held in Ottawa from September 15 to 20 is being made through the labor department. It is felt that this report and the memo of information prepared by the labor department in connection with the conference will be of substantial value in furthering the objects of the gathering.

THE NEW FRENCH REMEDY. HALL'S CATARRH MEDICINE. Sold in three degrees of strength—No. 1, 1.11 No. 2, 2.22 No. 3, 3.33 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address THE COOK MEDICINE CO., TORONTO, ONT. (Formerly Walker.)

MONEY ORDERS When ordering goods by mail, send a Dominion Express Money Order.

### Women Lawyers in Canada

Nova Scotia's first woman lawyer, Miss Emeline McKenzie, made her first appearance in court recently and won her first case. The first woman to seek admission to the bar in the Maritime Provinces was Miss French, of St. John, now a successful practitioner in Vancouver, who made application for admission in New Brunswick some 10 years or so ago. Her application aroused a good deal of interest at the time because of the contention, raised in opposition to it, that a woman was not a "person" within the meaning of the governing act.

Minard's Liniment Relieves Neuralgia.

In five years of war Great Britain spent the equivalent of the revenue of fifty years of peace.—London Free Press.

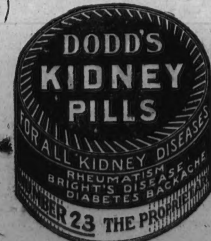

### A Mighty Serious Thing

"You printed my death notice, and that's no joke." "But, my dear sir, that's not my fault. It's the fact that you are alive that makes it no joke." There was a subtleness to this that made it most annoyingly puzzling.

### Women Voters in Iceland

Borne the Big Load and Been a Good Citizen About It

The average salaried man has kept on the job; he has fed and clothed his family somehow; he has done his full share in buying bonds and sticking away thrift stamps and in giving to all the war causes, he has pinched and economized, taken on extra hours in the home garden; he has done his duty in the main bravely, loyally, patiently, nobly. The biggest thing about him is that he hasn't kicked and howled; he hasn't threatened and menaced; he hasn't bombed or Bolsheviked; he hasn't often complained. He has, indeed, borne the middle of the big load and been a good citizen about it. He is not a whit less of a hero than some others whose work has been more spectacular and whose suffering has been more sanguine.—Savannah News.

### Laugh When People Step On Your Feet

Try this yourself then pass it along to others. It works!

Ouch ! ? ! ? ! This kind of rough talk will be heard less here-in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called frezone when applied to a tender, aching corn stops soreness at once, and soon the corn dries up and lifts right off without pain. He says frezone is an efflu compound which dries immediately and never inflames or even irritates the surrounding tissue or skin. A quarter of an ounce of frezone will cost very little at any drug store, but is sufficient to remove every hard or soft corn or callus from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels.

Boarding houses are probably so called because a man is expected to plank down in advance.

No More Asthma.—Dr. J. D. Kellogg's Asthma Remedy sounds the death-knell of this trying trouble. It stops the awful choking and painful breathing. It guards against night attacks and gives renewed ability to sleep and rest the whole night long. Much is claimed for this remedy, but nothing but what can be demonstrated by a trial. If you suffer from asthma try it and convince yourself of its great value.

Humiliating George: I hear that your employees discharged you. Daphne: Yes, but I wouldn't mind that so much if they hadn't added insult to injury.

George: How? Daphne: They advertised for a boy to fill my place.—London Tit-Bits.

Instead of seeing snakes and other reptiles, the bibulous tramp sees axes and wood axes.

Bashfulness and awkwardness are twins.

# The Jarrow Page

This page is devoted to the interests of Jarrow and District

## JARROW

The UGG elevator is now open with Mr. Mason in charge.

Rev. Mr. Bainbridge has been visiting Rev. Allen for a few days.

J.J. Therou and H. S. Denison have got the crops pretty well threshed out in the valley.

S. Bumpus threshed over his usual territory and is back to plowing again.

Mr. Robert Heron returned from Scotland a few days ago and reports a pleasant voyage.

Mr. Christenson Sr. is doing nicely after his very painful accident.

A dance was held at Lynx school last Friday night and everyone had a good time.

Miss Helma Christenson has returned to her home again and Miss Landers has taken her place in Manner's store.

Robt. Dewar is putting the Palace barber shop in shape for the winter and erecting a substantial coalshed.

Lisson and Yates are having a long run with their threshing outfit this fall. They have worked now over two weeks and expect a week or two more work yet.

Mr. McMinn from Irma district is in charge of the Alberta Pacific, so now you have a good choice and will get all that is coming to you in either elevator.

Clayton Reece, Jas. Lockhart, Tom Lockhart and Lawrence Wakefield have all returned from the CPR line from threshing. They intend to go north with a bunch of traps for the winter.

The ladies aid of the Jarrow church put on a chicken supper in town Thanksgiving night and realized the handsome sum of \$100.00 from their efforts. We understand the money is to go to defray a part of the church debt. Which reminds us that most likely we would never have a church and probably never get it paid for if we did get it, if it were not for the efforts of the ladies.

Miners are now at work turning out coal at full capacity. What better coal is obtainable than Humberstone? The Imperial Lumber Co handle Humberstone and also Tofield.

## "A Joan of Arc Machine"

"SHE withstood everything in the field and above all was, and still is, the last and only car to survive until the cessation of hostilities"—Extract from letter received by Ford Motor Company from a British Soldier, in Africa.

Over shell-torn roads, through water soaked fields, second only to the tanks in its power to climb ditches and crater holes, the Ford car made a world famous record in the fighting area of the great war. In press despatches, in field reports, in letters, in rhyme and song the praises of the Ford were sounded.

In France - 700 cars out of 1,000 were Fords  
In Italy - 850 cars out of 1,000 were Fords  
In Egypt - 995 cars out of 1,000 were Fords  
In Mesopotamia - 999 cars out of 1,000 were Fords

The Ford power plant that established this world-wide record in every theatre of the war remains the same. It will be in the Ford you buy.

Ford Standard 800, Touring 800. On Open models the Electric Starting and Lighting Equipment is also extra.

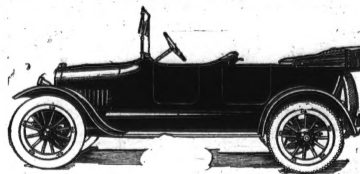

Complete 800, Sedan \$1,275 (closed model prices include Electric Starting and Lighting Equipment, standard road tire carrier, and standard spare on rear as optional equipment on closed cars only at \$60 extra. These prices are C. & S. Ford, Ltd., and do not include War Tax.

Buy only Genuine Ford Parts. 700 Canadian Dealers and over 5,000 Service Garages supply them.

## The New Overland 4 With Three-Point Cantilever Springs, the Greatest Improvement in Riding Comfort Since Pneumatic Tires

THIS new Overland 4 has a springbase of 130 inches—yet its wheelbase is only 100 inches.

It is a brand new type of car with an entirely new standard of riding comfort.

The springs are three-point Cantilever Springs of Chrome Vanadium steel, a new type of spring exclusive with this new Overland.

They give the Overland 4, with its light weight and ease of driving, the riding-comfort and road-steadiness formerly confined to heavy, expensive cars of long wheelbase.

They end bouncing and vibrating over the bumps. They stop the usual swaying, twisting and jars that fatigue the passengers and rack the car!

The wheels and springs go up and down, following the bumps, but the passengers and car are shielded from the blows of the road. The Three-Point Springs protect the mechanism from road injuries and prolong the life of the car.

Light weight brings great economy of tires and gasoline.

High quality materials and workmanship are used in Overland 4 throughout. Its equipment is like that of expensive cars, complete from Auto-Lite Starting and Lighting to its Demountable Rims.

Ask the Jarrow Auto Supply to show you this new motor car which has been tested more than 250,000 miles, let them explain to you its exclusive Three-Point Cantilever Springs, then—

Select rough roads that you formerly dreaded to ride over and see what it means to ride in Overland 4.

## Letter to the Editor.

We have just received an interesting letter from Mr. Roscoe Frye late of Clark Manor, Roscoe and family are at Centralia Washington. Mr. Frye writes in part: The weather there has been much drier than at Irma. There is plenty of fruit which we are enjoying. Think I stayed up there too long though because if my folks weren't here we'd be back there by now.

Things aren't much cheaper here than there. Wages are very good and plenty of work to be had, when the strikes don't tie things up.

We have bought a car and are going to see considerable of the country while we are at it. Am also taking in Salmon spearing and would like to place a fine big fresh Salmon nicely cooked, before the management of the Times. I'll bet he'd fill an extra column or get out an extra.

I could tell you of a good many fine things here but I don't want to cause a stampede from Irma, as we might want to find our old neighbors at home if we get back there.

So you see that in spite of a nice house and site here, and frosts, draughts, etc. there, that, "Be it ever so humble there is no place like home in Alberta."

## New Doctor.

Dr. H. Hill of Edmonton arrived in Irma last Tuesday and intends looking after Dr. McGreggor's practice while the Dr takes a holiday. Dr Hill will be at the office in the Drug Store.

## Fire Alarm.

Last Friday noon an overcoat hanging on the wall in the back of H.W. Love's Real Estate office took fire evidently from the heating stove. Smoke was noticed by some one passing and the fire was soon extinguished however not before the coat was ruined.

## Everyone Who Bought Canada's Victory Bonds Made Money . . . . .

EVERY one of the million and a half subscribers to Canada's Victory Bonds knows that he can sell them today for more than he paid for them.

Every one who bought Canada's Victory Bonds has received 5½ per cent. interest per annum—paid twice a year.

Over half a million Canadians who bought Canada's Victory Bonds on the instalment plan saved money that they would not otherwise have saved.

The guarantee back of Canada's Victory Bonds is the same as the guarantee back of a One Dollar or a Two Dollar bill. There is this difference, however, that you get interest on the Victory Bonds and you don't on the One or Two Dollar bill.

Canada's Victory Bonds will always be accepted as security for a loan.

Banks are ready to loan money on Canada's Victory Bonds.

Canada's Victory Bonds may be turned into cash at any time.

There is no other way in which you can invest your money with such absolute security—paying such a good rate of interest.

Canada will soon give her citizens an opportunity to buy Victory Bonds 1919. It will probably be the last chance to buy Canada's Victory Bonds on such favorable terms.

Prepare to buy as many Victory Bonds this time as you now wish you had been able to buy the last time.

## Victory Loan 1919

"Every Dollar Spent in Canada"

Issued by Canada's Victory Loan Committee, in co-operation with the Minister of Finance of the Dominion of Canada.
